

## 2006 Draft Statewide Transportation Improvement Program

MDT has released a draft of the 2006 Statewide Transportation Improvement Program (STIP). We want your comments and ideas on these projects.

The STIP is a list of most major transportation projects planned for Montana for the next three federal fiscal years. These projects include Aero-nautics, Railways, Highways, Public Transportation, and Federal Lands Highways.

The primary goal of the draft STIP is to solicit public comment on the proposed transportation program for Montana.

Each year, MDT receives many helpful comments and innovative ideas

**This is your opportunity  
to comment on Montana's  
Transportation Projects.**

from the public on transportation-related issues. We carefully consider and respond to these comments and strive to incorporate them into the Department's policies and decision-making processes.

We encourage the public to comment on this list now or anytime throughout the year as various transportation issues may arise.

To locate the major projects listed in the draft STIP (those costing over \$1 million), please refer to the map in the center of this issue of *Newsline*.

### Commenting On Other Projects

Throughout the year, MDT submits projects that are not on the STIP list to the Transportation Commission. To view the list of highway projects MDT plans to present at the next Transportation Commission meeting, go to [www.mdt.state.mt.us/trans\\_comm/docs/proposed\\_proj.pdf](http://www.mdt.state.mt.us/trans_comm/docs/proposed_proj.pdf).
